

## Williams Appoints Scott Hallam as Senior Vice President of Atlantic-Gulf Operating Area

January 9, 2019

TULSA, Okla.--([BUSINESS WIRE](#))--The Williams Companies, Inc. (NYSE: WMB) ("Williams") today announced that Scott Hallam has been named senior vice president over the company's Atlantic-Gulf Operating Area, succeeding Frank Ferazzi, who previously announced his retirement.

Hallam has most recently served as vice president and general manager, Eastern Interstates (including oversight of Williams' Transco pipeline system) in the Atlantic-Gulf Operating Area. Previously, Hallam was vice president over operational activities in Williams' Northeast G&P Operating Area and, prior to that, led Development and Operations in the Utica as a general manager for Access Midstream.

"I am pleased to announce this well-earned promotion for Scott," said Micheal Dunn, executive vice president and chief operating officer of Williams. "Whether leading operations and commercial activities for Transco, Cardinal Pipeline and Pine Needle LNG or leading operations in our Bradford, Utica and Susquehanna supply hubs as he has done at Williams, Scott has distinguished himself as a talented leader whose focus on strong execution and customer service has consistently delivered outstanding results."

Dunn also praised outgoing Senior Vice President Frank Ferazzi for his work with the operating area.

"Frank's many contributions to Williams have been significant and long-lasting. The successful commissioning of several large-scale expansion projects under his leadership, including Atlantic Sunrise, have positioned Williams to serve the growing demand for our services," Dunn said. "We wish Frank all the best in his retirement."

Hallam stated, "I am honored to lead Williams' Atlantic-Gulf Operating Area and its terrific team of professionals as we work to continue delivering tremendous service to our customers and strong results for our business with our unmatched assets."

### About Scott Hallam

Prior to being named senior vice president, Atlantic-Gulf Operating Area, Hallam served as vice president and general manager, Eastern Interstates for Williams' Atlantic-Gulf operating area where his responsibilities included overall operations and commercial activities for Transco Pipeline, Cardinal Pipeline and Pine Needle LNG. Hallam, who has an MBA in Organizational Leadership as well as Bachelor of Science and Master of Science degrees, brings nearly 20 years of experience in the natural gas industry. During that time, he has performed in different leadership capacities in the upstream, midstream and downstream sectors, including time with Dominion Energy serving transmission and distribution responsibilities.

### About Williams

Williams (NYSE: WMB) is a premier provider of large-scale infrastructure connecting U.S. natural gas and natural gas products to growing demand for cleaner fuel and feedstocks. Headquartered in Tulsa, Okla., Williams is an industry-leading, investment grade C-Corp with operations across the natural gas value chain including gathering, processing, interstate transportation and storage of natural gas and natural gas liquids. With major positions in top U.S. supply basins, Williams owns and operates more than 33,000 miles of pipelines system wide – including Transco, the nation's largest volume and fastest growing pipeline – providing natural gas for clean-power generation, heating and industrial use. Williams' operations handle approximately 30 percent of U.S. natural gas. [www.williams.com](http://www.williams.com)
